EDUCATION

King Abdulaziz University

Jeddah, SA
2021 - present

Bachelor of Science in Computer Science

- 4.85 GPA

EXPERIENCE

Google Developer Student Club

Jeddah, SA
2023 - 2024

Full Stack Web Developer

- Developed and maintained web applications using **React.js**, **Node.js**, and **Express.js**, ensuring responsive and user-friendly interfaces.
- Designed and implemented a frontend platform for competitions hosted by the club, enhancing user engagement and event participation.
- Automated certificate generation and distribution for workshop attendees using **Google Apps Script**, reducing manual work and improving efficiency.
- Conducted code reviews and debugging sessions, improving team productivity and code quality.

CERTIFICATIONS

KAUST Intro to AI & ML

- Gained hands-on experience in Artificial Intelligence and Machine Learning, applying algorithms to real-world problems such as pattern recognition, and predictive modeling.

The Odin Project – Full Stack Track

- Completed a comprehensive web development track focused on React.js, Node.js, MongoDB, and SQL, gaining experience in building and deploying full-stack applications.

PROJECTS

Silly Spotify

- Developed a web app for managing Spotify accounts, analyzing user listening trends, and remixing playlists using **React**, **Node.js**, and the **Spotify API**.

Skateaway

- Designed and built a responsive eCommerce frontend with a shopping cart system for a streetwear brand, leveraging **React** and **Bootstrap** for a modern UI.

The Personal Blog

- Created a full-stack blogging platform with a front page, publishing page, and a server-side API for managing posts. Enabled efficient CRUD operations with a user-friendly interface using **React** and **Node.js**.

GG: The Memory Game

- Developed a fully animated card memory game to challenge users' memory skills, featuring smooth animations and an interactive design (**React**, **CSS**).
